This is what I recorded:

To me, „It's my nature“ means...

1. Go to your favorite place in nature

2. Take out your phone and record birdsong, nature sounds or your walk across the natural ground.

Note: Avoid background noise such as the rustling of your jacket, passing airplanes or human voices.

Your recording should be a minimum of **15 seconds** and a maximum of **1 minute long**. (MP3-, MP4-, WAV format).

3. Take pictures; maybe you'll get your animal friend in front of your lens.

4. Send your original sound recording (MP4 file or MP3 file, maximum 150 MB), photos (JPG, maximum 2 MB) and the documentation form until May 10th to us! Use [Wetransfer](#) for optimal data transfer.

Important note

By sending this documentation form, you agree to the unrestricted publication of your submitted data (film, audio, image recordings). Furthermore, you permit the processing of this data within the framework of the project LIFE living Natura 2000.
